#### **DETAILED ACTION**

# Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.
- (e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 1, 5-9, 11, 14-18, and 20-21 are rejected under 35 U.S.C. 102(e) as being anticipated by Miyatake et al. (US 6,021,231) as set forth in the previous Office Action dated 12/29/2004.

Application/Control Number: 09/503,476

Art Unit: 2613

## Claim Rejections - 35 USC § 103

- 3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
  - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 4. Claims2, 5-9, 11, 14-18, and 20-21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nagasaka et al. (US 2002/0022521) in view of Miyatake et al. (US 6,424,744 B2) as set forth in the previous Office Action dated 12/29/2004.

### Response to Arguments

5. Applicant's arguments filed 03/29/2005 have been fully considered but they are not persuasive.

The applicant argued that Miyatake does not disclose designating means for designating an image that corresponding to a start scene that is the object of a search and a time length from the start scene included a moving picture, pages 9-11 of the remarks.

The examiner respectfully disagrees with that applicant. It is submitted that Miyatake clearly disclose designating means (figure 4, e.g. a user can use a keyboard (4) and mouse (3) to select an picture or image (40 of fig. 4) for corresponding to the start frame, scene, media number as shown in figure 5) for designating an image that corresponding to a start scene that is the object of a search and a time length from the start scene included a moving picture (figs. 3 and 4; see also col. 6, lines 58-col. 7, line17). In view of the discussion above, Miyatake clearly anticipates the claimed features.

#### Conclusion

6. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

## **Contact Information**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tung Vo whose telephone number is 571-272-7340. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mehrdad Dastouri can be reached on 571-272-7418. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
